funeral flowers price guide

WHEN FLOWERS MATTER

making decisions at a time of loss can be difficult, and my aim is to help where I can.

Listening to all the details, we can plan something unique and special.

"I just wanted to say thank you so much for our beautiful flowers today. They were really stunning and we were so pleased with them. Thank you for making a hard day that little bit easier."

HOW I WORK

I work from my home studio and specialise in using natural mechanics and seasonal flowers to create completely unique tributes. I am environmentally conscious and therefore I do not use any floral foam or single use plastics, meaning that many designs are suitable for natural burial grounds. I will make time to discuss your requirements over the phone or in person.
